FOCUS ON UNIVERSITY VALUES: SERVICE

The Division of Administration and Finance contributes to the University mission by managing resources and creating a culture that facilitates and promotes teaching, learning and research. Service is one of four core values of our Division.

Service is defined as an act of helpful activity that supplies others with aid and information. Providing service not only means helping individuals, but it also means contributing to your work environment by being a part of something bigger than yourself. Service is an important value to uphold because it encourages people to help and respect one another and to work hard with and for others. Service provides opportunities for all participants, whether they are the beneficiaries or the providers, and these actions contribute to stronger communities on campus.

Baja Fresh is Coming to the TSU

Based on customer feedback and the findings of a university wide survey (a total of 3,125 surveys were collected after ten days), Auxiliary Services Corporation (ASC) will be replacing Green Burrito with Baja Fresh in the Titan Student Union food court. Students, staff and faculty voted for restaurants based on freshness, nutritional value, taste and quality. Baja Fresh will open during the fall 2012 semester.

Titan Tuesday Program Begins on Campus

Titan Tuesdays, a university wide initiative, was established in February 2012 by the Division of Student Affairs to promote Titan Pride on campus by encouraging all staff, faculty, students, and administrators to wear Titan apparel every Tuesday.

In conjunction with the University’s Titan Tuesdays program, Titan Shops is offering 25 percent discounts on regularly priced CSUF apparel on the first Tuesday of each month to faculty, staff and administrators who present their CSUF ID card. Items that could be worn to receive the discount include CSUF shirts, lapel and tie pins, buttons, scarves or ties.
